

Brothers and Sisters in Union,

I'm Matt Mason from Sacramento State and I want to be your first choice for Norcal Seat #1.

Consider me a candidate for the bargaining team because I have always put others first. I have worked at Sacramento State and been a Union Member for 16 years, and I have been the Chief Steward for 11 years. My Union involvement started on day one.

As a member in Sacramento, I have supported many bills, lobbied, negotiated contract terms and personally trained others on trips to the State Capitol. Most recently fighting for AB 1231 – our Step Raises, I will return to the Capitol and lobby for our new bill AB369.

I have been on past Unit 6 contract negotiations committees and added new stronger items and kept important contract language in place when new elected board members were chosen to lead our union. I have made motions at Statewide Union meetings and secured a voice for all campuses, and passed policy that reimbursed a campus representative for their travel and food when going long distances to take part in the meetings.

Use my experience with grievances and sitting across the table from management. I am fair, honest and trustworthy and I have good relationships with the administration of the CSU. I do not mind Red Tape, have patience and have an analytical big picture view. I get things done, and I will work tirelessly to get your contract passed and ratified with your concerns intact.
