

Dear UCLA Vanpool and Public Transit Users,

As the University continues to take measures to protect the health and well-being of the campus community, and with the ongoing concern regarding the spread of COVID-19, **UCLA Transportation will offer you complimentary parking** until the need for social distancing subsides.

Effective immediately and continuing until normal campus operations resume, public transit and vanpool riders who want to suspend their normal commute mode can log into the [Bruin ePermit portal](#) and register their vehicle to park in select parking structures at no additional cost. This added benefit is also available to customers who have already canceled their transit pass or vanpool participation.

Please follow the steps below to register for a daily parking permit.

1. Visit the [Bruin ePermit Portal](#) and click "LOGIN" in the upper right-hand corner.
2. Select "UCLA Logon" and enter your information.
3. Select "Permits" from the top navigation bar and click "Get Permit" from the drop-down menu.
4. Complete the purchase process for a **\$0.00/day Cross Parking Permit**.

Although there is no charge, please be sure to follow the above process as outlined **each day you park your vehicle on campus**. This process allows our office to properly manage parking demands for all permit holders and medical center customers. You will note that not all permit areas are available. This is by design to ensure that medical center permit holders are not displaced from their standard parking facility.

We appreciate your cooperation and dedication to using sustainable transportation. If you have any questions or need further information, please contact us at transportation@ts.ucla.edu.

Sincerely,
UCLA Transportation
