

Dear Parking Permit Holder,

In response to the Los Angeles County safer at home order issued on March 19, 2020, UCLA suspended all nonessential on-campus operations to help limit the spread of COVID-19. As such, UCLA Transportation temporarily waived parking permit fees for faculty, staff and students. As the City of Los Angeles and the University begin to reopen services, and a significant number of employees return to campus, UCLA Transportation will be **reinstating monthly auto-renew parking permit fees beginning June 1, 2020.**

If you do not need your monthly parking permit at this time, you may log into the Bruin ePermit system and **cancel your permit within the next two weeks.** If you do not cancel your permit, standard parking deductions will resume with July pay periods. UCLA Transportation will make every effort to assign your original parking location should you cancel your permit but cannot make any guarantees for canceled permits at this time. Please follow our step-by-step instructions on [how to cancel your permit](#).

Discounted daily parking permits are available to those faculty and staff members who need to drive to campus occasionally. Please follow [these steps to purchase a daily parking permit](#).

There may be large volumes of traffic on the Bruin ePermit portal over the next several days as employees who do not need parking at this time cancel their parking permits. If you have trouble accessing the portal, please try again at a later time. We appreciate your patience and apologize in advance for any inconvenience.

If you have any questions or need further information, please contact us at transportation@ts.ucla.edu or (310) 794-7433.

Sincerely,
UCLA Transportation
